

Nexthink Accelerate

“Human Powered” Digital Employee Experience Subscription Service

Transformational change requires a relentless focus on outcomes. Partner with a skilled team of experts to extend your team’s capabilities. Leverage a team with decades of experience around digital employee experience data, content, and analytics for the knowledge and instruction to help you efficiently deliver your desired outcomes. Nexthink Accelerate, a digital employee experience subscription service, connects you with the proven experts, technology, experience, and focus needed to accelerate achieving the benefits of Nexthink.

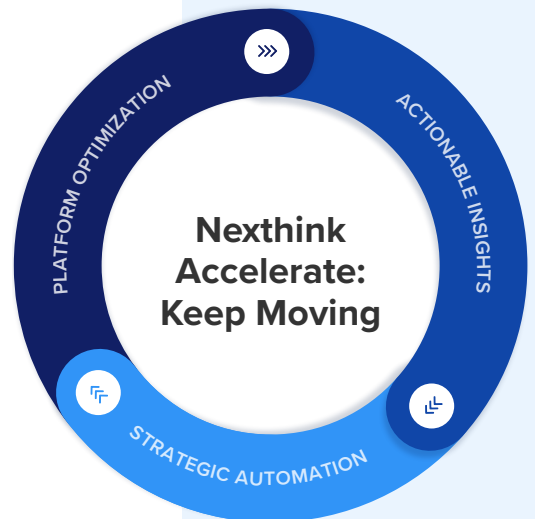

Whether driving transformation, reducing disruption or improving employee experience, Nexthink Accelerate is your partner for supporting your people, processes, and procedures. We work with your team to understand your business problems, prioritize fixes and elevate your organization’s DEX maturity.

What we do

- Guide your IT initiatives and programs
- Conduct recurring data analysis, baselining, and benchmarking
- Develop Nexthink dashboards, investigations, remote actions and campaigns aligned to your business objectives
- Provide a deeper understanding of causes behind low digital employee experience scores
- Identify key areas requiring focus and prioritization
- Maintain analytical dashboards and recommend automations based on ongoing ticket analysis
- Regular checks on defined metrics to keep the program on track and meet goals

What you achieve

- Optimization of Digital Experience Score with benchmarking across business areas and locations
- Prioritized use cases identified and analyzed
- Strategic direction with an active IT improvement roadmap
- Faster analysis and superior results due to focus on outcomes and actions
- Measurable cost savings because of in-depth, actionable analytics

Platform Optimization

Capitalize on expert recommendations to optimize your platform configuration and continually improve your integrations

Actionable Insights

Transform data into purposeful and qualitative outcomes

Strategic Automation

Build content and automations for continuous improvement
